

True inspiration for dental professionals

Astra Tech Conference Center
for Training & Education

Are you interested in learning more about dental implants, or are you thinking about changing implant system? Astra Tech offers a broad selection of basic, intermediate and advanced courses, where you and your dental team will achieve the necessary skills and knowledge to ensure safe, reliable and esthetic long-term results. Providing high-quality training is an important part of our efforts to be regarded as the best choice in dental implantology by dental professionals and patients worldwide. And as a part of this aspiration, the Astra Tech Conference Center for Training & Education opened in 2007. The center is located at our headquarters in Mölndal, Sweden.

A center of oppo

rtunities

Fully equipped with the latest technology

The new facility is fully equipped with the latest technology and offers the possibility to perform live surgery. The procedure can be seen through glass windows and close-ups are also being transmitted to screens in different auditoriums. By having several lecture rooms, it is possible to have numerous groups in the education center simultaneously.

A complete dental laboratory

The center is not only focusing on the education of dentists. It also offers a complete dental laboratory, allowing for the advanced education and training of dental laboratory technicians. All kinds of laboratory procedures, including Cresco™ precisioning and laser welding, can be performed. Due to interactive cameras, the participants are able to communicate with the instructor throughout the entire process, even if they are located in a different auditorium.

Qualified training generates safe treatment

Our high-quality courses are developed and arranged in close collaboration with universities and clinical centers, representing the highest level of expertise within different disciplines of implant rehabilitation. Furthermore, Astra Tech has one of the most well-documented implant systems on the market – an assurance of safety and security for you and your patients. With Astra Tech, you receive the service and support needed to get started in your own practice.

We look forward to being part of your ongoing professional development. Welcome to the Astra Tech Training & Education Program!

Contact your Astra Tech representative today or visit www.astratechdental.com for our scheduled courses.

Astra Tech BioManagement Complex™

A successful implant system cannot be determined by one single feature alone. Just as with nature, there must be several interdependent features working together. The following combination of key features is unique to Astra Tech:

- **OsseoSpeed™** — more bone more rapidly
- **MicroThread™** — biomechanical bone stimulation
- **Conical Seal Design™** — a strong and stable fit
- **Connective Contour™** — increased soft tissue contact zone and volume
